

DAY 1 - 19 May 2017

7:00am - 8:00am

BREAKFAST - Organic, vegetarian and gluten free options

7:45am FRIDAY MORNING SESSION

THEME: Integration at an Advanced Level – Why is this so important in treating Chronic Illness and Cancer?

7:45am **Jeremy Phillips** Opening comments

8:00am – 8:45am **Dr. Paul Anderson - Keynote**

Why integrate, what does that look like and how do Advanced Applications fit in?

In this opening session, Dr. Anderson will set the stage for the three days as well as providing introductory examples of integration across Autoimmunity, Cancer and Chronic Infections.

8:45am – 9:30am **Dr. Gary Foresman**

Managing patients in a truly integrative manner

In this session, Dr. Foresman will provide a framework to place holistic thinking into the internal process of managing and following complex cases.

9:30am – 10:00am **Dr's. Foresman and Anderson**

Integrating healing across lines – A clinical discussion

In this session, the doctors will discuss their own processes for integration and engage the delegates in the process.

10:00am - 10:30am

MORNING BREAK

10:30am – 11:30am **Dr. Nasha Winters**

“It's never just Cancer” – An integrative Oncologists perspective

In this session, Dr. Winters will discuss her perspectives regarding true integration in the care of patients with cancer.

11:30am – 12:30pm **Dr. Lyn Patrick**

How environmental factors crosses all lines in Chronic Illness

In this session, Dr. Patrick will take a “top down” look at the far reaching effects of environmental toxicants in all facets of Chronic Illness.

12:30pm - 1:00pm **Emily Givler, DSC**

How Genetic Variants in Nrf2/Keap1 and Iron Utilization Create ROS

Based upon research from the NutriGenetic Research Institute, it has been discovered that genetic variants in Nrf2 and Keap1 genes, when combined with variants in the HFE and SLC40A1 genes that impact iron absorption create an environment that may cause ROS in the cells. In this presentation, you will learn how to identify this pattern, and steps to take to reduce the free radicals. (Non-CME)

1:00pm - 2:15pm

LUNCH BREAK – Organic, vegetarian and gluten free options

2:15pm AFTERNOON SESSION

THEME: Advanced Integration in Medicine – Tips from experienced Clinicians

2:15pm – 3:15pm **Dr. Gary Foresman**

Integration in Medicine: Clinical case examples

Dr. Foresman will use his years of experience to relate case examples of integration across the types of Chronic Illness

3:15pm- 4:00pm **Dr. Paul Anderson**

The biological crossover points of Autoimmunity, Cancer and Chronic Infections

In this session, Dr. Anderson will briefly outline the points of contact and crossover between autoimmunity, Cancer and Chronic Infections, illustrating how these points can lead to better integration.

4:00pm - 4:30pm

AFTERNOON BREAK

4:30pm- 5:15pm **Dr. Paul Anderson**

Integration in Medicine: Clinical case examples

In this follow up to his prior talk, Dr. Anderson will give case examples showing the crossover points in Chronic Illness

5:15pm – 5:45pm **All Faculty**

Experts Q & A Panel: “How does the clinician manage integration?”

5:45pm - 6:00pm

COMFORT BREAK

6:00pm EVENING SESSION 6:00pm – 8:00pm **Hors D’oeuvres and Vendor Demonstrations**

DAY 2 - 20 May 2017

7:00am - 8:00am

BREAKFAST - Organic, vegetarian and gluten free options

8:00am SATURDAY MORNING SESSION

THEME: Advanced Topics relating Genomics and Environmental Medicine to Chronic Illness and Cancer

8:00am – 10:00am **Dr. Paul Anderson**

Genomics, Chronic Illness and Cancer: Where are we and what do we know?

In this session, Dr. Anderson will discuss clinical genomics as they relate to Cancer and Chronic Illness. He will include case examples and discuss the latest in Nutrigenomics.

10:00am - 10:30am

MORNING BREAK

10:30am – 12:30pm **Dr. Lyn Patrick**

Environmental toxicants and Immune Dysregulation: Effects on Infectious Disease and Autoimmunity – Part 1

Dr. Patrick will deliver the first of a two part presentation about the deleterious effects of environmental toxicants and immune dysregulation.

12:30pm - 1:00pm Elizabeth Plourde, C.L.S., NCMP, Ph.D.

How Electromagnetic fields (EMF) Impacts Cancer (Non-CME)

1:00pm - 2:15pm

LUNCH BREAK – Organic, vegetarian and gluten free options

2:15pm AFTERNOON SESSION

THEME: Environmental Toxicants and the Importance of Food and Digestive Health in Chronic Illness and Cancer

2:15pm – 3:15pm **Dr. Lyn Patrick**

Environmental toxicants and Immune Dysregulation: Effects on Infectious Disease and Autoimmunity – Part 2

Dr. Patrick will deliver the second of a two part presentation about the deleterious effects of environmental toxicants and immune dysregulation, including case and treatment examples.

3:15pm – 4:00pm Dr. Nasha Winters

Digestive health and diet in those who are chronically ill or have Cancer

Part 1 of a two part session on this important topic. Best practices in diet and therapy as well as enhancement of the digestive system in Chronic Illness will be discussed.

4:00pm - 4:30pm

AFTERNOON BREAK

4:30pm- 5:30pm **Dr. Nasha Winters**

Digestive health and diet in those who are chronically ill or have Cancer

Part 2 of a two part session on this important topic. Best practices in diet and therapy as well as enhancement of the digestive system in Chronic Illness will be discussed.

5:30pm - 6:00pm Lyn Patrick, N.D.

An informative session on Chronic Infections, Biofilms, and Clinical Applications on the use of Biocidin®. A favorite of Functional and Integrative practitioners for 27 years, university research includes Lyme disease and Biofilms, with new studies on dysbiosis including SIBO, as well as dental infections, and immune modulation. (Non-CME)

6:00pm EVENING SESSION

6:00pm – 7:30pm **Dr. Paul Anderson**

Hor's D'oeures and AAMP Think Tank: Future physician planning for AAMP attendees and membership".

We have found some of the best "new topic" areas come from the feedback of practicing physicians, often in casual conversation at conferences. In this brief evening session, Dr. Anderson will meet with delegates for informal Q & A and discussion of future topics of interest as well as outlining the next webinars and the Portland, Oregon Fall AMP meeting.

DAY 3 - 21 May 2017

7:30am - 8:30am

BREAKFAST - Organic, vegetarian and gluten free options

8:00am SUNDAY MORNING SESSION

THEME: Constitution and Case Management in Chronic Illness and Cancer – 1

8:30am – 10:30am **Dr. Paul Anderson**

Non-resolving (or slowly resolving) Cases: What to do; What to think.

In this session, Dr. Anderson will draw upon thousands of patients interactions in the arena of Cancer and Chronic Illness, to lay out a format to fall back on in slowly (or non) resolving cases. Examples from his practice will be included.

10:30am - 11:00am

MORNING BREAK

11:00am – 11:45am **Dr. Nasha Winters**

Cancer Prevention

In the chronically ill, without Cancer, the need for Cancer prevention can be great. In those with Cancer, “secondary prevention” is an incredibly important consideration. In this “to the point” discussion, Dr. Winters will use her specialty knowledge and experience to outline the best practices for this important topic.

11:45am – 12:15pm **All Faculty**
Experts Q & A Panel “Genes, Environment and Nutrition”

12:15pm - 1:30pm

LUNCH BREAK – Organic, vegetarian and gluten free options

1:30pm AFTERNOON SESSION

THEME: Constitution and Case Management in Chronic Illness and Cancer – 2 “What to do on Monday Morning”

1:30pm – 2:45pm **Dr. Paul Anderson**

Advanced therapy integration for synergy: Oral, Diet, Injection/IV, Detoxification, Hormonal,

Hyperbaric, Hyperthermia and other therapies

When to use them and how they can fit together.

2:45pm – 3:15pm **Dr. Paul Anderson**

Management of the Stressed out, very ill patient and physician)

In this, to the point session, Dr. Anderson will share ideas and experiences relating to management of patient expectations, follow up timing and issues, and the physicians own health in this demanding area of chronic illness care.

3:15pm – 3:45pm **Expert Q & A Panel**

“Taking Integration of Advanced Therapies back to the Office: What to do next?”

3:45pm **Adjourn**

3:45pm POST EVENT

Our goal at AAMP is to have opportunities between our two “live” events to grow our community, answer questions and learn. We know the struggle of getting home with a lot of new information and then trying to implement it!

- Two live webinar follow up events with live Q&A (these will be recorded and available for attendees to view any time after recording).
- Access at no charge to the consult web portal for clinical questions for all AAMP attendees.
- Discounts for selected online CE and learning events for all AAMP attendees.
